

## Welcome to Lazy River Village Digital Media

Lazy River Village has a website and two Facebook groups. Following is what you need to know as a new owner.

### **Instructions for web users:**

The address for the Lazy River Village website is: **lazyrivervillage.org**

The Lazy River website contains an external area and an internal area. The external area is open to the world in general. It's primary function is to showcase and provide Lazy River information to people considering Lazy River for a future home. It contains:

- A 3 minute video promoting Lazy River and a 360 degree aerial view of our park.
- A great deal of information about our facilities, activities, and who we are.
- Listings of homes for sale or rent.
- Documents such as bylaws and rules and regulations.
- Maps of the park.

The internal area is available to owners and long term renters only. A login is required for entry into the internal area. It contains:

- Listings of homes for sale or rent.
- More detailed information for our clubs and activities along with contact information if you are interested in a club or activity.
- A picture gallery with pictures from recent events.
- Copies of the park newsletter "The Current".
- Common forms. All forms, as well as the Current are in pdf format. They can be downloaded, printed or just viewed.
- A park directory of owners.

Once you are an owner, the procedure for registering and acquiring a login user name and password, is fairly simple. Send an email to [lazyriverregister@gmail.com](mailto:lazyriverregister@gmail.com). In the email state your first and last name, your Lazy River address, and the email address you would like to associate with your registration. The request can be one of three different types:

1. A single person. Include one name, one email address, and your Lazy River address.
2. A couple desiring one joint account. Include both names, one email address, and your Lazy River address.
3. A couple desiring separate accounts for each of them. Include both names, an email address for each person (they cannot be the same email address), and your Lazy River address.

After receiving the registration request the site administrator will register you in the system and assign you a user name and a temporary password. You will receive a reply email informing you of your user

name, and your temporary password. The email will also include instructions for changing your temporary password to one of your own choosing. That is it. You will then have access to the internal area.

Your user name will be your first and last name with a space in between. For a joint account it will be your two first initials along with your last name. When logging in you may use either your user name or you email address for the user name field. The user name entry is not case sensitive. The password field is case sensitive. It is very helpful, but not required, that your request for registration is sent from the same email address as you are using to register. If you have any problems or questions send an email to the registrar at [lazyriverregister@gmail.com](mailto:lazyriverregister@gmail.com).

The Lazy River website was developed and is maintained by Lazy River owners. We are very proud of the website, but if you have concerns, questions, or suggestions, please let the office know and they will direct them to the right person.

#### **Instructions for the Lazy River Facebook groups.**

Lazy River Village sponsors two Facebook groups. The first group is “Lazy River Family”. This group is for owners to share information and pictures about Lazy River events or something in their personal lives. It contains a very wide range of material. The second group is “Lazy River Sales”. This group is tailored exclusively to what owners want to sell or buy.

Both groups are private groups, limited to current and past Lazy River owners and long term renters (3 or more months). The groups are not open to children or friends of owners. To join a group, search for the group name while on Facebook and request to join. Owners cannot invite another person to join. There are three questions to answer when joining. The group administrator will then approve your request. There are a few group rules which are posted at the beginning of the postings list. Welcome and have fun.
